

VitaSIRO soloTM

Human Papillomavirus (HPV) Assay

In a world where hidden threats to health persist, early detection is crucial. Meet our revolutionary solution - VitaSIRO soloTM HPV Assay. Our innovative solution employs advanced microfluidic channels for rapid nucleic acid extraction, combined with real-time PCR technology for accurate identification of high-risk HPV strains.

With a simple sample-in, result-out process, the Credo HPV Assay is designed to work seamlessly with cervical specimens collected in ThinPrep[®] PreservCyt[®] Solution, ensuring precise and reliable results. This empowers healthcare providers to make informed decisions and enhance patient care.

Advantages:

Quick & Rapid Results

Ready-to-use cartridge with only 1 minute of hands-on time and results reported in 40 minutes.

Inclusivity

Targets 14 high-risk HPV types with genotyping of HPV 16 and 18/45.

Portable & Adaptable

Small footprint and lightweight, perfectly fitting into various scenarios.

Target of Detection

- HPV 16
- HPV 18/45
- Other high-risk types:
HPV 31, 33, 35, 39, 51, 52, 56, 58, 59, 66, 68

Specimen Type

- Cervical specimens collected in ThinPrep[®] PreservCyt[®] Solution
