

# Credo Diagnostics

## Advanced Medical Technology for All

# About Credo Diagnostics

Since 2011, Credo Diagnostics has been dedicated to the research and development of cutting-edge diagnostic technologies. We specialise in the creation, manufacturing, and commercialization of precise, rapid, and cost-effective molecular diagnostic platforms.

We believe that delivering the **right** information, at the **right** time, to the **right** people has the power to enhance the lives of billions globally.

## Credo Diagnostics Overview

Rapid Molecular Diagnostic platforms at **Point-of-Care Testing**

### Our focus areas

- Disease Diagnostics
- Human Genotyping
- Veterinary Testing
- Food Safety
- Academic Research

### Multiple value-creation milestones

- Simplify Diagnostic Processes
- Accelerate Healthcare Decision Making
- Support Data Management of Diagnostics Results

2011

2020

2022

2023

2024

#### Breakthrough INNOVATION for POCT

- Launched **VitaPCR™** instrument and Influenza A&B assay at AACC and obtained CE mark.

#### Credo Diagnostics

- Founded in Singapore

#### Deliver Total POCT Solution

- Launched **VitaDataLink™** connectivity software for efficient data management
- The capability of connecting to patient database management (LIS) with HL7 messages through several communication protocols

#### Detect COVID-19 in 20 mins

- Obtained CE mark for SARS-CoV-2 assay, Strep A assay, and combo assays for Flu/SARS-CoV-2 and Flu/RSV

**50**  
Countries Worldwide

#### Embark on A New Journey

- More than 8,000 **VitaPCR™** instruments have been deployed in over 50 countries worldwide
- Received IVDR regulatory approval for **VitaSIRO solo™** instrument
- Expanding our diagnostic menus

#### Expanding Animal Diagnostics: **QubeMDx+™**

Provide innovative solutions for the growing animal diagnostics market, covering companion animals and livestock

# Introducing VitaPCR™

VitaPCR™ is a fast and accurate molecular diagnostic solution that detects infectious diseases in just 20 minutes using real-time Polymerase Chain Reaction (PCR) technology at the Point-of-Care. It complements traditional laboratory-based methods and conventional PCR testing, providing healthcare professionals with highly accurate results, enabling quicker and more informed

Product Code: PCRAC0101

CE IVD

CE IVD

VitaPCR™ SARS-CoV-2 Gen 2 Assay  
VitaPCR™ Influenza/SARS-CoV-2(Flu/SC2) Assay  
VitaPCR™ Flu A&B Assay  
VitaPCR™ Strep A Assay  
VitaPCR™ Flu/RSV Assay

CE IVD

VitaPCR™ SARS-CoV-2 Gen2 External Control Set  
VitaPCR™ Flu A&B External Control Set  
VitaPCR™ RSV External Control Set

Product Code: PCRAC1101

# Introducing VitaSIRO solo™

The cutting-edge platform combines the proven power of PCR technology with integrated DNA/RNA extraction, providing a multiplex diagnostic solution that can detect up to six distinct targets from a single specimen.

## Respiratory Infections

VitaSIRO solo™ SARS-CoV-2/Flu/RSV Assay <sup>1</sup>

## Women's Health and Sexually Transmitted Infections

VitaSIRO solo™ HPV Assay <sup>1</sup>

VitaSIRO solo™ CT/NG/TV/MG Assay <sup>2</sup>

## Hospital-Acquired Infections

VitaSIRO solo™ MRSA Assay <sup>2</sup>

## Gastrointestinal Infections

VitaSIRO solo™ Bacterial Gastrointestinal Assay <sup>2</sup>

VitaSIRO solo™ Viral Gastrointestinal Assay <sup>2</sup>

## Human Genotyping

VitaSIRO solo™ MT-RNR1 SNP Assay <sup>2</sup>

VitaSIRO solo™ ADH/ALDH Assay <sup>2</sup>

## Myocardial Infarction Biomarker

cTnI Assay <sup>2</sup>

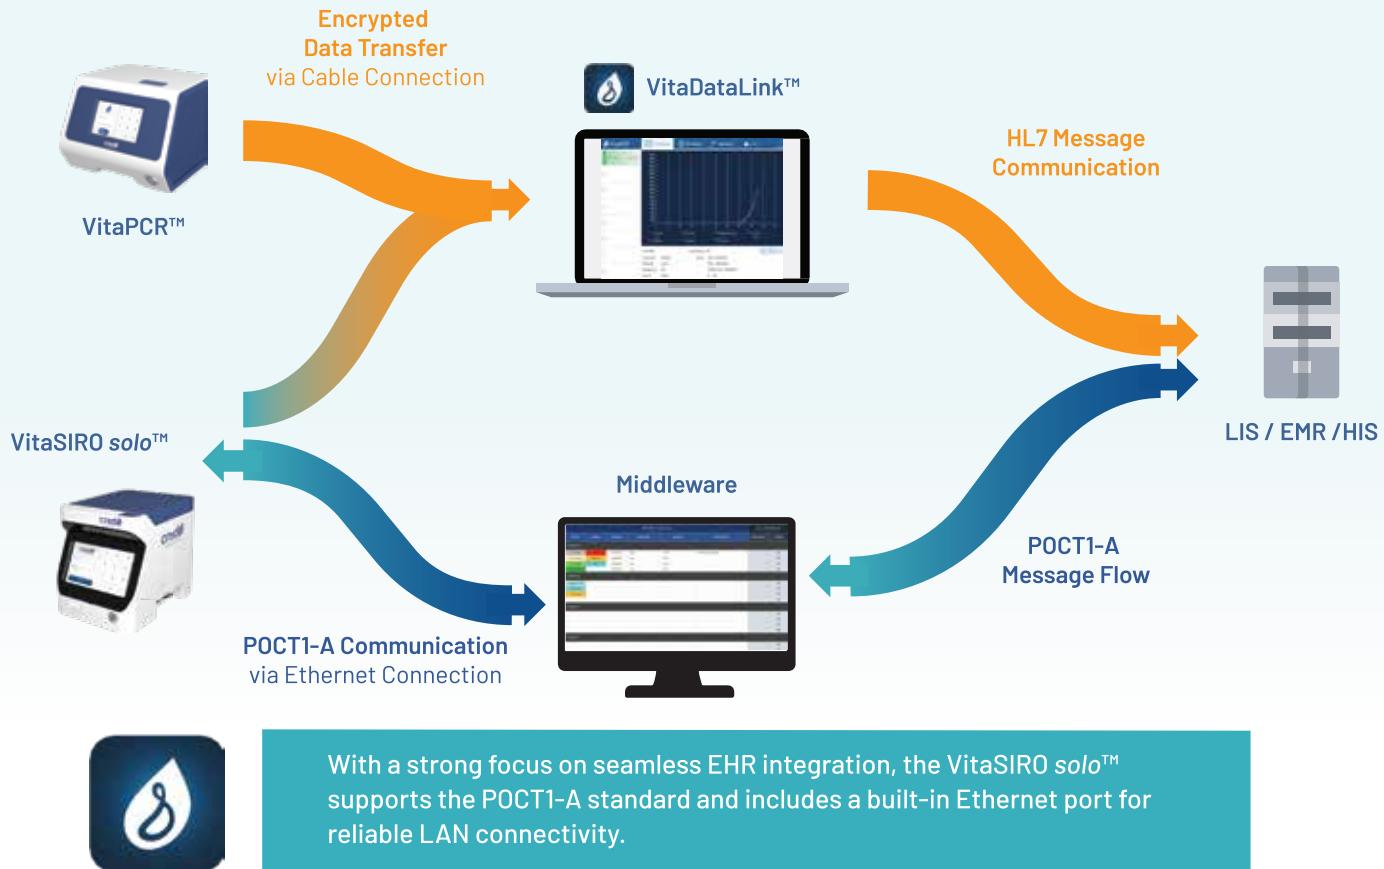

<sup>1</sup> CE-IVDD

<sup>2</sup> Under development / RUO

# Connectivity Solution

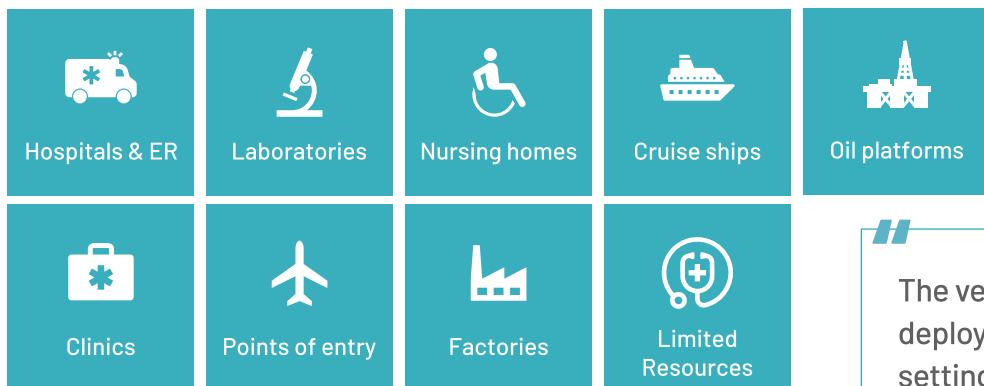

VitaDataLink™ is a connectivity software designated for database management of Credo Diagnostics instruments and featured with automatic transfer of HL7 messages across disparate healthcare systems.

With a strong focus on seamless EHR integration, the VitaSIRO solo™ supports the POCT1-A standard and includes a built-in Ethernet port for reliable LAN connectivity.

## Versatile Deployment to Multiple Industries

The versatile platform can be deployed in various clinical settings and other high-risk locations.
